

# Innoloft wants you!

Linking corporates, combine technologies, create innovation!

Uncaught TypeError: Cannot read property.

ReferenceError: event is not defined.

Warning.js:36 Warning: React.createElement: type should not be null.

## Front-End Developer (full-time)

### About Innoloft

Innoloft is establishing a digital platform to accelerate innovation across all technology sectors. We achieve this by connecting the right business contacts that are developing innovative products and ideas, all in our platform [innoloft.com](http://innoloft.com). Our core user groups are startups, investors and established companies.

Startups want to grow, investors need investment cases and corporates need new technologies, ideas or business models. If Spotify can suggest the music you might like, we can also propose the right people to bring a startup's vision further.

### Why we need you

And we're growing! You'll be developing and designing our frontend structure and creating a modular based React application in a team of passionate developers with dedicated UX and graphic designers. Are you looking for a great vision, a challenging job, a motivated team and flexible working hours? Then join us!

## Yours skills and tasks

### Desirable knowledge

Interests in the field of:

- ✓ HTML, CSS, JavaScript
- ✓ ReactJS, Redux
