

# Innoloft is hiring!

Network agents, combine technologies, create solutions!

## Innovation Manager (full-time)

Innoloft has made it its task to accelerate innovations in the tech sectors of energy, mobility, Smart City, industry 4.0, IT/IKT, FinTech and health. To this end, we operate a digital ecosystem. It shows established companies' options for business development and matches them automatically with solution providers such as startups. In addition to the platform, as project managers with our Business Model Development concept we also implement novel business models ready for deployment to our customers (large corporations, hidden champions, medium-sized companies).

And we've grown. Since the subject of innovation is constantly gaining significance in the economy, the number of innovation projects we manage has increased considerably. We are looking for an Innovation Manager (m/f) (full-time) as soon as possible to take charge of project management for innovation projects. Are you interested in a grand vision, challenging tasks, a lot of responsibility, a motivated team and flexible working hours? **Get in touch!**
